MARYLAND 4TH IN ONLINE DONATIONS

Do you make your charitable gifts by mail, phone or online? According to a new study conducted by Network for Good and Guidestar, Marylanders were ranked 4th in total online donations per capita. Online givers also tend to be more generous than "offline" donors when comparing average gift size.

Many of the organizations listed above have online giving capabilities from their websites, while several are dependent on your mailing or calling in your gifts. Regardless of how you make your contribution, at Maryland Nonprofits we encourage you to give generously to the nonprofit organization of your choice, and make an informed giving decision.

If you are intrigued about the growing trend in online giving, you might be interested to know that from 2000 to 2005, online giving grew from \$250 million to \$4.5 billion and still represents only a fraction of the over \$200 billion in gifts to charities by individuals in the United States.

For more information on nonprofit organizations in Maryland, including those organizations that have been certified under the Standards for Excellence program, visit www.nonprofitsyoucantrust.org.
